

**EXTENSIBLE CAD
TECHNOLOGIES**

From CAD drawing to
quality inspection sheet

in **MINUTES**, not hours

with  **INSPECTION
XPERT**

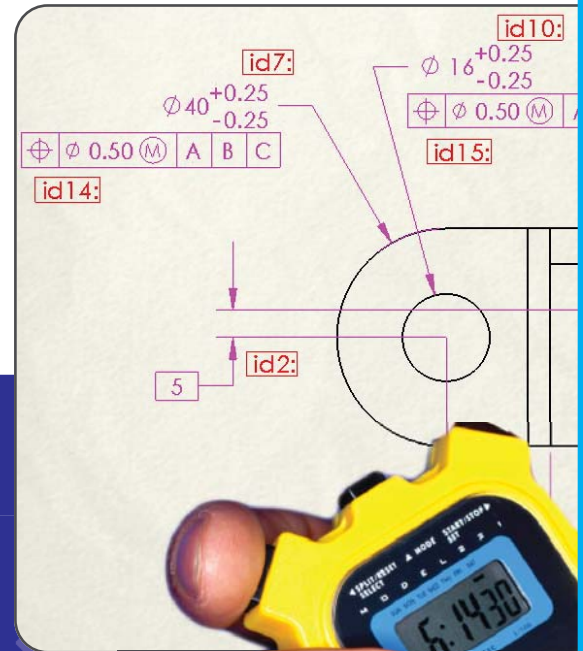

- 1 Do you create Inspection Report Documentation for:
First Article Inspection (FAI)
Production Part Approval Process (PPAP)
In-Process Inspection
Etc...
- 2 Do you receive inspection drawings in various formats such as:
Autocad SolidEdge
Autodesk Inventor SolidWorks
Cadkey Visio
PDF Etc...
- 3 Do you still use a pen and stencil to balloon your inspection drawings?
- 4 Do you need the ability to easily customize the format of your inspection reports for various customers, products, etc...?
- 5 Would you like to reduce the time to create Inspection Reports and Ballooned Drawings by 60% to 80%?

If you answered **YES** to any of the above questions, then you should take a look at InspectionXpert.

Not Hours!**

benefits

	Dramatically Lower Inspection Costs	Improve Inspection Accuracy	Achieve Quality Standard Compliance	Reduce Wasted Labor	Easily Integrate Into Existing Process
Quickly and accurately generates quality inspection sheets from your design drawings for first article inspection and in-process inspection.					
Simultaneously balloons your design drawings with reference designators to uniquely identify each dimension, note and GTOL on your inspection sheet.					
Incorporates single sampling plans from quality sampling standards such as ANSI Z1.4 and Mil-Std-105E into your quality inspection sheets.					
Export your inspection sheets to industry standard formats such as AS9102 Form 3.					
Customize your inspection sheet templates to support companyspecific formats.
